Home Lift

GKE home lift is a machine-roomless home elevator developed to meet the needs of middle and high-end villas/townhouses/duplex apartments. Adhering to the concept of safety, technology and humanity, GKE brings convenience and comfort to every family, the convenience we can provide to you will highlight your honor and enhance the value.

Specifications

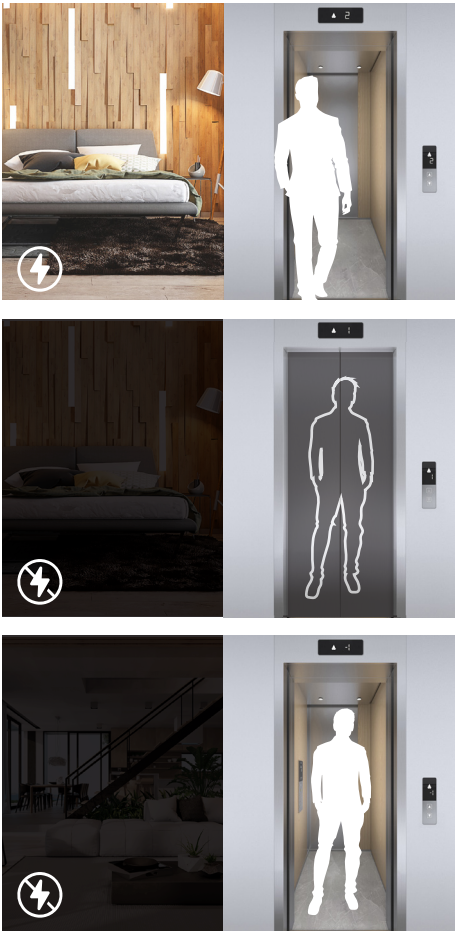

Speed (m/s)	Load Capacity (kg)	Maximum Travel (m)	Maximum Number of Landings
0.4/0.63/1.0	250/320/400	18	6

Features & Advantages

- SPACE FREEDOM**
Save valuable machine room space and reduce overhead height.
The best in class low pit depth.
- GREEN AND ENVIRONMENT-FRIENDLY**
The single-phase 220V power supply reduces the application barrier.
The daily energy consumption of a home elevator is less than that of a refrigerator.
- HUMAN FRIENDLY**
Suitable for single-phase 220V power supply, reducing the application barrier.
Outdoor rescue device can be easily used for rescue in case of emergency (optional).
Automatic landing to the nearest floor and opening of the door in case of power failure.
Reduced maintenance time for user convenience.
- ADVANCED TECHNOLOGY**
The product is standard equipped with an emergency backup power supply, ensuring trouble-free operation in the event of a blackout.

Power Failure Automatic Rescue Device

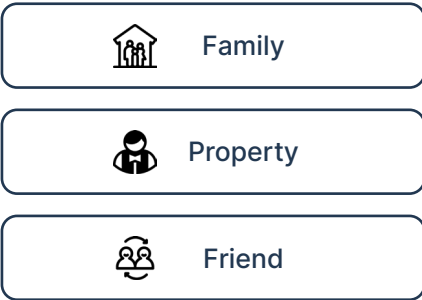

- In the event of an emergency power failure, the emergency lighting in the car is switched on and the lift switches to the back-up power source.
- The lift will automatically travel to the nearest floor, open the door and release passengers for automatic rescue.
- The lift will return to normal when power is back on.
